

I am an architectural intern with prior experience and have recently completed my Masters of Architecture at the University of Florida December 2011 and since, reside in Boston. My professional goal is to join a team and dynamic studio environment that fosters growth, leadership, and skill sets to discover appropriate design solutions. I am interested in any opportunities that will build on the experience I have acquired previously as an intern, that compliments the IDP process through wholesome mentorship.

The firm I interned with during my first internship for 2.5 years, specializes primarily in the higher education market which has given me the opportunity to participate in a variety of areas within the NCARB IDP curriculum. As a new intern I have been exposed to and assisted in several of the project phases. I am also LEED AP certified 2009 and currently preparing for the A.R.E.

One of the projects I have had a variety of IDP exposure on, was a \$30 million project with a program described as a community services complex for a local state college. It includes a mixed program of a basketball arena, classroom wing, and emergency operations center totaling 120k sf. At this time I have experience with AutoCAD, MS Office, Photoshop, InDesign, Illustrator, Revit, Sketchup, and some Rhino3D.

FORMAL EDUCATION

University of Florida, Gainesville Florida

-B.A. Design 2006 Summa Cum Laude,
Business Minor Track

-Master of Architecture December 2011

Paris Research Center, Paris France 2007

The Architecture of Paris

Asia Design Forum International Summer Session

2 week seminar hosted by architect Ken Yeang
Sustainability Seminar in Kuala Lumpur, Malaysia
Guest speakers from Asia, Europe, and U.S.A.
Design studio utilizing Revit 8.1

East Asia Summer Program - China (HK, BJJ, CHK)

Urban Design Studio with Chongqing University

SOFTWARE EXPERIENCE

Autodesk AutoCAD	2012	Autodesk Revit	2013
Adobe Photoshop	CS5	Adobe Premiere	CS5
Adobe InDesign	CS5	Sketchup Pro8- Vray	
Adobe Illustrator	CS5	Form•Z	5.1

PROFESSIONAL WORK

SAI

2012/13 Junior Architect: Primary Revit designer providing most of the project SD's and CD's in Revit while assisting with material/equipment research and specification.
